How to do this activity:

1. Use **Ready for Play and Learning** to see if your baby is ready to play and learn. Remember to use **5 Steps to Success** as you help your infant explore their natural curiosity during the activity.
2. Place your baby on the floor and put them on their back. Using the plates you created, show them to your infant one-at-a-time as you move the plate from side to side. While moving each plate, describe it to your baby. You might say something like: **Look! This is a face. The red lips are smiling at you.**
3. After telling your infant about a plate, remember to give them a chance to respond with their sounds, body movements, and facial expressions.
