How to do this activity:

1. Use **Ready for Play and Learning** to see if your baby is ready to play and learn. Remember to use **5 Steps to Success** as you help your infant explore their natural curiosity during the activity.
2. Gather 3 safe objects that have different textures, colors, and shapes.
3. Place these items on the floor in front of your baby. Watch your infant to see which object(s) they're interested in exploring first.
4. As your baby explores the different items, tell them what they're seeing, hearing, touching, doing, and feeling.
5. Remember to pause and wait for your infant to respond to what you're saying as you describe the different objects to them.
