How to do this activity:

1. Use **Ready for Play and Learning** to see if your baby is ready to play and learn. Remember to use **5 Steps to Success** as you help your infant explore their natural curiosity during the activity.
2. Put your baby on the floor and place them on their back. You can also do this activity as you provide basic care to your infant, like when you're bathing them or changing their diaper.
3. Put your face about 10 inches above their face. Then call your baby's name.
4. As your infant looks at you, stick out your tongue. Move it slowly in and out of your mouth. Then pause for a moment to see if your baby will copy your actions.
